Dear Fellow Automobile Enthusiast,

Every classic, antique, & collectible automobile has a story to tell. Some remind us of our youth, others of special moments in our lives. And still others represent the remarkable beauty, craftsmanship, & engineering of another era. For those who collect & treasure these automobiles, they are much more than cars. **They are memories worth preserving & achievements worth displaying.**

With this in mind, we have developed a distinctive collection of personalized wall displays and accessories designed especially for automobile enthusiasts. Our collection includes:

- **Custom Metal Wall Displays** – Beautifully designed displays featuring individual photographs of treasured automobiles, creating a lasting showcase for a personal collection.
- **Personalized Wood Display Plaques** – Elegant arrangements of collectible automobile photographs, customized with the collector's name.
- **Rosewood Presentation Boxes** – Handsome keepsake boxes featuring a favorite automobile photograph on a metal plate, ideal for storing keys, documents, and special memorabilia.
- **Personalized Gift Accessories** – Distinctive gifts celebrating a favorite automobile, a special occasion, or a lifetime passion for collecting.

For car club presidents and their members, these products also offer wonderful opportunities for **club recognition, anniversary celebrations, special awards, and memorable gifts.** We have enclosed our brochure illustrating several of these products and invite you to consider how they might complement your collection or bring something special to your club.

We would welcome the opportunity to discuss your interests, answer questions, or explore personalized designs for you or your members.

Because the automobiles we love deserve to be remembered, admired, and celebrated.
Warmest regards,

Sid Fey
